Stages of Development

One first must start in grade school and work up through College to get his Masters Degree on the physical side, and so it is in the spiritual. One starts on the ground floor & works up level by level - grade by grade - til finally mastery of self and a life of service in love is developed.

One must begin at the lower level, of working with ones self - on the physical, emotional and mental plane, ever striving to raise these three to a state of attunement.

Before you can contact your spiritual Teacher, you must work through Meditation, Study, & Service, to raise your level of conc. to the soul level for it is here that contact with the Master is possible.

Through meditation you will begin rising higher & higher ~~up~~ until you will contact your own soul and begin receiving new insight into your self.

Steps of Development to Mastery

I Probation - The Neophyte

- When a master recognizes you as soul on the path and considers you as a possible student or Disciple.

A. The master has a Div. of his being you to him in the Higher Astral and then you will talk

1. The master offers words of Advice

2. Tells the new pupil what is expected of him.

3. Congratulates him on things he may have already accomplished.

B. The master moulds out of mental, astral and etheric matter an exact counterpart of the Causal, mental, astral, and etheric bodies of the neophyte

1. In this way a master can periodically check up on the neophyte

2. When the master sees that no great disturbances have come about.

over a period of time and sees
that the student is trying to serve
and become a better person on
all levels - the master considers
him for Discipleship.

Discipleship -

A. Discipleship - The Life of Service -

1. A Disciple becomes an outpost
for the master in the outer
world stepping down vibrations
and thoughts from the master
so those on Probation or in
life of illusion might better
comprehend some of the greater
understandings.

2. As a Disciple gives of himself
through service does he also
move forward, obtaining new
understanding and insights
into himself.

3. A Disciple works on Balancing
the Physical - Emotional - Mental
Bodies with much more awareness
of self and of areas he needs to
work on.

1. Balance is brought about
through:

- A. Meditation
- B. Service
- C. Steadiness

III The Initiate:

A. The Initiate is one who proved
himself worthy as a Disciple.

1. The Initiate as a disciple carried
every thing through with his service
well, and

2. Raised his state of conscience and
began working more with
the higher energies and
knowledge and became a channel
through which they could
express in some degree.

B. A Disciple Becomes an Initiate when
the Master feels the Disc. has truly
proven himself worth to carry more
of the Responsibility of the Master's Purpose

An Initiate pledges himself to be of
Service to all and to be an instrument
through which the Brotherhood may work
